## MESSAGE FROM THE PRESIDENT

Aloha HISHE Members,

HISHE's second quarter was incredible. We all joined in on another first-rate annual conference. Our membership was greatly enriched by the educational content offered by the conference speakers. It was another year of record-breaking attendance and great participation during the expo.

Following the conference was another legendary annual golf tournament. The on-course vendors did a great job at keeping the players fed & hydrated as the competition heated up throughout the day.

The HISHE Board of Directors and Annual Event Committees express their appreciation to all that made our annual events so memorable.

Let's keep the momentum going in Q3 as we look forward to the ASHE Annual Conference and our Membership Meeting next month followed by the PBX23 Construction & Design Tradeshow in September.

Also, in Q3 the HISHE BOD is excited to reveal our logo rebrand and formally announce the renaming of our scholarship award. More details in the pages that follow.

Lastly, remember to Save-the-Date for our annual events scheduled for 2024 – you won't want to miss out.

*Taylor Ayers*

August 17, 2023**

**2:00 PM**

**HONBLUE**  
(carpool is encouraged)

**SCAN TO REGISTER**

**PLEASE REGISTER BY  
TUESDAY, AUGUST 8, 2023  
AT [HISHEHAWAII.ORG](https://www.hishehawaii.org)  
\$25 FOR NON-MEMBERS  
AND GUESTS**

## **Presenter: Chip Richards from Solid State Lighting Hawaii**

Chip Richards is a proud University of Hawaii at Manoa engineering school graduate, and owner of Solid State Lighting Hawaii. His background in photonics and high-tech R&D engineering in addition to 4 years as an apprentice electrician before college, have provided him with a multifaceted background to specify successful lighting systems for commercial projects statewide.

His company, Solid State Lighting Hawaii is an Oahu based commercial lighting agency tasked with educating local engineers and building owners to understand the many newly available lighting technologies and find the correct product for each application.

Topic: LED as a light source has greatly expanded the possibilities of lighting; now instead of just being able to turn lights on and off, we can use specific spectra of light to change the dynamics of the space or to provide a human safe layer of disinfection with Indigo LEDs. Will discuss LED lighting basics, "Spectra" aka wavelengths of light, how to control the spectra, and benefits of both human centric lighting and disinfection lighting with Indigo Clean.

# LOGO REBRANDING

It is such a privilege working in healthcare, especially in the State of Hawai'i. The HISHE board thought it would be a great time to rebrand and create a logo that could represent the special characteristics of our members.

Here were some of the guiding principles underpinning the design of our new logo:

- Expressing the tight-knit nature of our healthcare ecosystem that comes from being geographically isolated.
- Sharing the “Ohana” feeling when all the healthcare systems’ engineers come together from across the state to support one another.
- Representing the strategy and problem-solving that is done daily as healthcare engineers.
- Reflecting that our work is being done within the context of our unique state values.

# ANTHONY W. MOISO SCHOLARSHIP

The HISHE BOD is excited to share that the HISHE Scholarship award has been renamed as the Anthony W. Moiso Scholarship Award! As our chapter matures it is important to celebrate its own history and recognize those founding members that helped guide the chapter to where is today and where it will go in the future.

There is no better person to name our scholarship award after than Tony Moiso. Tony refounded the Hawaii Society for Healthcare Engineering in 2016. He served as the chapter's first president in the new-era, established chapter by-laws and recruited the chapter's early leaders like, David Jimenez, Mitch Allen, Ross Lee and Troy Branstetter, to key roles so that the ASHE mission of providing education, regulatory guidance, and the professional development of the Healthcare Engineers could be fulfilled in the State of Hawai'i. For the past two years, Tony has been serving on the HISHE Board of Directors and leads the Scholarship Committee. He has led the charge on our student outreach efforts—advocating for HISHE and its members at college recruiting events and has established HISHE's ongoing scholarship donation program with the state colleges. Tony will be retiring at the end of 2023, but his legacy of educating & developing the healthcare engineers in Hawai'i will proceed as each awardee will be connected to his name long into the future.

### Anthony W. Moiso Scholarship

We would like to officially announce our scholarship program for this year.

**WHAT:** \$1,000 Cash Scholarship; \$500 upon reward, \$500 upon completion of course(s).

**WHEN:** Application period is now to May 15, 2023; Award announcements June 15, 2023.

**HOW:** Must be sponsored by current HISHE member, complete application form, provide two letters of recommendation (one from sponsor, one from non-family member), and complete a minimum 250-500 word essay.

A maximum of ten (10) scholarships will be awarded this year.

Please share this information with your family and friends. Encourage them to apply (assuming you'll sponsor them!). And, remember, this year's deadline to apply is May 15, 2023.

Thank you,

HISHE Board of Directors

Application NO. \_\_\_\_\_ (HISHE Use Only)

To qualify for a HISHE **\$1,000** Scholarship (\$500 upon reward, \$500 upon completion of course(s)) applicant must meet all the following criteria:

1. Must be sponsored by current HISHE member.
2. Must have a GPA of at least 3.0 and provide a copy of school transcript(s).
3. Be a current resident of the State of Hawai'i.

Applicants must also submit the following:

1. Two (2) letters of recommendation with application that describe applicant's commitment to the profession.
  - a. One (1) letter from HISHE member sponsor.
  - b. One (1) letter from non-family member who could attest to your qualifications.
2. A 250-500 word essay of your choice.

Suggested topics:

- a. Share your story; tell us about your background, identity, interest or talent.
- b. What do you want to accomplish in college? What is your goal?
- c. Tell us why you have chosen a career in healthcare.
